

## We Make AV Easy

# Home Audio Video Services

Complete Design, Installation, Training & Support  
We look forward to working with you to create the custom home Audio, Video or Automation system of your dreams...

### HOME THEATER & AUDIO

We design and install industry leading systems to create your personalized Media Room. Our AV experts get the job done right. Get the popcorn, relax, touch your iPad... Your screen is activated, the lights dim... enjoy the show!

### WHOLE HOUSE SYSTEMS

We team up with you or your architects, interior designers, and contractors to plan your AV, lighting, and energy management systems. Our flexible platforms and networks are designed for emerging technologies so you can easily upgrade anytime.

### HOME REMOTE CONTROL | YOUR CONNECTED HOUSE

From energy monitoring, management, and power saving, to making sure the lights are off before bedtime, your Connected House offers all the control you could ever need. You're in command... Access your home anytime, anywhere, from any device.

### LIGHTING & SHADES

These days you can remotely control almost any electrical appliance in your home. Lower your shades, turn down the lights... With just the touch of a button.

### NETWORKS - WIRED & WIRELESS

Setting up your home devices on an integrated network will enable everyone at home to simultaneously enjoy their choice of entertainment using their PC, Mac, iPad, or mobile device.

### HOME SURVEILLANCE SYSTEMS

With properly placed, installed, and networked cameras, and effective viewing and monitoring systems, a surveillance system can deter bad guys. Commercial customers trust us to help secure their property. We can safeguard your home too.

### WE CARE ABOUT YOU

"We pride ourselves on making sure every customer is happy before we consider their project finished."

- Mylon Staton  
President, DataLink

### LOCAL COVERAGE

DataLink, based in Millersville, MD, supports residential communities throughout Central Maryland.
