

## SERVICES PORTFOLIO

### Professional Consulting Services

Need advice for a big project or want strategic input that will help you meet your IT goals?

### IT Support Services

We monitor and manage our clients' networks, desktops, and everything in between.

### Corporate Audio, Video Services

Keep your people connected. Conferencing and video room systems save time, money and travel.

### Structured Cable | Wireless Access

As the size and nature of your business changes, so will your need for IT access and more speed.

### Physical Security

There's one thing everyone agrees on - protecting your people and your assets is absolutely critical.

### Business Communications

Our portfolio offers everything from phones to collaboration capabilities that help you keep in touch.

### COMPLETE COVERAGE

DataLink is based in Millersville, MD and supports your local, regional, and national locations.

## We Make "IT" Easy

## Structured Cable Plant | Wireless Networks

# Data / Voice / Video Infrastructure

## Is the performance of your network infrastructure up to speed? If not, the consequences can add up fast...

- Real time apps can bog down and waste time
- Delays and Quality of Service problems may frustrate users
- Your network might not be available when you need it
- Bandwidth speed might not support business growth
- Your data may not be as secure as you thought

## It's Your Business

Whether your focus is a new building, a renovation or a campus addition, network infrastructure is as vital a utility as HVAC. If something is amiss, it will be noticed and the complaints will come at a fast and furious pace. At stake is nothing less than the ability to conduct business. To avoid costly changes later, you should have a proven IT partner working on your behalf as soon as you start planning your transition; one that has the knowledge, experience and relationships to ensure a successful deployment – on schedule and within budget.

## What We Do

- Site surveys, Rights-of-way, and CAD services
- Inside plant, outside plant, campus, wireless
- Structured cabling: fiber optic and copper, riser and backbone
- Enclosed equipment cabinets and Open racking systems
- Computer room design and installation
- UPS and DC power systems

## We Make Network Infrastructure Easy

If network infrastructure issues are slowing you down, DataLink has solutions that are right for your organization – at a cost that makes sense. Whether you're running a small or medium-sized business, each and every DataLink client is valued. You'll know it, because we'll prove it every day. And it's why for years and years, our client relationships continue.
