We Make "IT" Easy

Physical Security
Alarm and Security Systems

Are safeguards in place to protect your business? If not, everything you've worked for can be lost in an instant…

- A fire can destroy your building and inventory
- Thieves can break in to take cash and valuables
- Water leaks can damage walls, floors, and ceilings
- Smoke can linger for months, discouraging customers
- Employee pilfering can take a toll on your bottom line

It's Your Business

When it comes to running a business, you don't want to waste time wondering how you can lose it. But it happens every day to businesses of all types and sizes. So you have to take precautions. Our business security and alarm systems provide immediate protection and will grow with you. They can be seamlessly integrated with existing surveillance, fire protection, and access control systems. Best of all, they provide you with peace of mind and protect your bottom line.

What We Do

Our team of security experts design and implement solutions that help protect your business from unexpected events. The components of these solutions include…

- Burglar alarm systems
- Security surveillance cameras
- Electronic fire alarm systems
- Smoke detection systems
- Water leak detection systems
- Access control systems

We Make Security Easy

If the security of your business is keeping you up at night, DataLink has solutions that are right for your organization – at a cost that makes sense. Whether you're running a small or medium-sized business, each and every DataLink client is valued. You'll know it, because we'll prove it every day. And it's why for years and years, our client relationships continue.
