As the size and nature of your business changes, so will your need for IT access and more speed.
Physical Security
There's one thing everyone agrees on - protecting your people and your assets is absolutely critical.

Business Communications
Our portfolio offers everything from phones to collaboration capabilities that help you keep in touch.

COMPLETE COVERAGE
DataLInk is based in Millersville, MD and supports your local, regional, and national locations.

We Make "IT" Easy

IT Support Services

Data Center & Collocation

Still entrusting all your data to onsite servers? If so, you could be overlooking an affordable way to reduce risk from…

- Server crashes and unreliable backup processes
- Network intrusions, viruses and hack attacks
- Unpredictable service outages from utility and bandwidth providers
- Fire and flood that knock out equipment rooms
- Natural disasters and local emergencies that close your building

It's Your Business

Many businesses need a redundant data center, but find that building one from scratch doesn't make economic sense. An alternative is to use a third-party collocation facility. An off-site data center eliminates the cost of maintaining your own and mitigates the risks associated with on-premises infrastructure. Your mission critical systems and files will be available when you need them – even to your remote offices, call centers, and teleworkers.

What We Offer

- **Power, Cooling & Security –** Mission-critical requirements are met with scalable power, cooling infrastructure, and enhanced security
- **Reliability** – With access to multiple network service providers and carriers, you'll have access to a highly redundant network that never bogs down.
- **Economy** – Saves you money. An in-house data center with design deficiencies can be costly to operate and could put your IT investments in jeopardy.
- **Redundancy** – Solves the challenges presented by Sarbanes Oxley, HIPAA, SOX, SAS 70 and other mandates that require fail-safe protection of critical IT systems.
- **Flexibility** – Depending on your needs you can opt for different levels of management, including on-site maintenance support and proactive 24 hour monitoring, 7 days a week.
- **Scalability** – Whether your business needs space for 1 server or 100, DataLink can help.

We Make IT Easy

If IT issues like storage and backup are keeping you up at night, DataLink has solutions – at a cost that makes sense. Whether you're running a small or medium-sized business, each and every DataLink client is valued. You'll know it, because we'll prove it every day. And it's why for years and years, our client relationships continue.
