LASTING RELATIONSHIPS

"We have clients that have been with us since we began supporting them in the early 1990's. Our client relationships don't end after the job is done, they continue for years and years because of our personal touch... They know that we really do care about their success. We prove it every day."

- Mylon Staton
President, DataLink

COMPLETE COVERAGE

DataLink is based in Millersville, MD and supports your local, regional, and national locations.

We Make "IT" Easy

ProLink IT Products

ProtectIT for Workstations

For organizations needing to protect data against workstation failures, fire-water damage, information theft, and hack attacks.

Ever experience a computer crash? Everything is running smoothly one moment and in the next moment your data is gone and your applications inaccessible. That's why we developed *ProtectIT for Workstations*.

This automated, proactive tool provides data protection by performing storage of local workstation backups to DataLink's secure data center facilities. Secure transport of data occurs over a DataLink-approved broadband Internet connection. *ProLink ProtectIT for Workstations* detects problems and issues alerts on backup status and health conditions that could cause unwanted data loss or outages before they occur.

ProtectIT for Workstations includes...

- Automated managed backup tool set
- Automated workstation backups every 60 minutes
- Complete workstation image, including operating system volumes, applications and data partitions
- Backup files stored in virtualized format, allowing easy restoration to new hard drive, or new workstation
- Backup stored to disk or client provided network storage device
- Online client portal for backup status review and reporting

We Make IT Easy

When handling today's IT challenges is keeping you up at night, DataLink has solutions that help you rest easy – at a cost that makes sense.
