Technical Assessments & Audits

Are your IT systems helping you or holding you back? If you haven't done a thorough IT audit, you won't really know …

- If your network is operating at peak performance
- What systems or applications are hogging resources
- How to prioritize traffic so real-time apps run smoothly
- To what extent unauthorized software and apps have been added to your systems
- Whether your IT strategy fits your business goals

Assessments & Audits At a glance

- Tailored to the size and needs of your organization
- Health checks for all your systems
- Proactive search for hidden problems
- Budget planning based on facts

How We Work

DataLink engineers perform a comprehensive IT Audit of your systems and networks. Along the way we look for ways to increase your business performance by making your IT better, smarter and safer. We work with you to establish the kind of technology you're going to need in the future and propose an appropriate IT budget so you understand all the costs well in advance.

We Make IT Easy

If issues like these are keeping you awake at night, DataLink has solutions that are right for your organization – at a cost that makes sense. Whether you're running a small or medium-sized business, each and every DataLink client is valued. You'll know it, because we'll prove it every day. And it's why for years and years, our client relationships continue.
